

Welcome on board the Esmeralda, *Gemstone* of the Nile!

M/S Esmeralda was named after the spanish word for Emerald, a stone mined in ancient Egypt that represents harmony, generosity and consideration, all facets that we regard as fundamental aspects of our service.

The Stone of *Successful* Love..

For the ancient Egyptians, the emerald stone represented the source of eternal life and to do “green acts” meant realizing positive, life changing behavior.

We invite you to join us on a “green” journey down the Nile, visiting our most extraordinary monuments that reveal the depth and the grandeur of our ancient civilization, powered by the tranquility, purity and vitality that our gemstone embodies.
